

UNDERSTANDING YOUR RESIDENTIAL BILL

Here is an explanation of terms, abbreviations and numbers you see on your residential bill.

1 Account Summary - Indicates the date the bill was created; the dates of service; the date the bill is due; the total amount due; and the total amount due if received after the due date.

2 Message Field - Be sure to check this box every month for important messages from your Cooperative.

3 Consumption Information - Indicates the rate at which you were charged, your meter number, your meter readings and the number of kilowatt-hours used.

4 Kilowatt-hours (kWh) - Unit of measurement for electricity consumed. A watt is a measurement of energy. One kilowatt equals 1,000 watts.

5 Customer Charge - Reflects the cost to provide power at each member's location. This is your base charge.

6 Wires Charge - Reflects the Cooperative's cost to distribute energy from the substation to each member's meter.

7 Power Cost Pass-Thru Charge - Reflects the cost of generation and transmission of power from our wholesale providers to the substation.

8 Pay Stub - If paying by mail, include the bottom portion of your bill with your payment. If paying your bill at the office, please bring your pay stub along with your payment.

9 Address or Phone Changes - Please indicate any changes in your account information here.
